In order to comply with safety regulations, all Winjet Group quality products are compliant with all applicable federal regulations, such as SAE and D.O.T.; as well as compliant to FMVSS No. 108. All products are manufactured in our own state-of-the-art ISO 9001:2008, TS16949:2001, ROHS quality certified manufacturing factory. Each Winjet light developed is a challenging process that captures the essence of success. The samples are now being installed in sample vehicles to doubly ensure perfect fitment. Winjet's entire R&D process takes several months – from concept and design to testing. We stand by this process, even though it takes longer to develop new products. A near decade's worth of experience solidifies this process. Our products are tested by independent laboratories. This measure guarantees the quality of our products. We go above and beyond what is necessary to benefit our customers.
